

1968 Camaro Convertible

When talking old muscle cars it doesn't take "a car guy" to point out the vintage Camaro. That's because for years the classic Camaro has been one of the most popular classic cars ever created. These muscle cars have been referenced in pop culture many times since new and even today Chevrolet is creating cars that reference back to the 60's model. This 1968 Camaro falls into one of the most popular years they were made. With its boxed fenders, rear spoiler and overall fast appearance the car has the quintessential muscle car look. This car is a convertible making it even more desirable than the average coupe. The car is coated in nice Orange paint that pairs perfectly with the White racing stripes and hockey stick style accents down the front fenders. It reverses the color scheme of the Camaro pace car which is another favorite of muscle car enthusiasts. The body is in good condition and fitted with the original style chrome bumpers and stainless around the fenders. All of the chrome and stainless is in a nice finish and are cleanly mounted in place. A white cloth top works well with the Orange and is easy to raise/lower to suit your mood or the weather. The original style Rally wheels sit under all 4 corners and are wrapped with BF Goodrich Radial T/A tires.

Powering the car is the original 327 V8 and its body has the correct 327 emblems on the front fenders. The engine starts up nicely and gets the car rolling with no issues. It has nicely been finished out with Chevrolet valve covers and air cleaner which are painted Orange to match the body. Backing up the motor is the original 2 speed automatic transmission that moves through the gears with ease. Power steering is also in place making driving very comfortable.

The interior of the car has been kept primarily in the stock condition except for the custom floor mats which are easily removable should the original style want to be added. The upholstery work is all done in White and between the dual bucket seats is the original center console. This houses the horseshoe shifter as well as separate gauge pods. The dash has a nice coat of Black paint topping it as well as a Black dash pad. All of the original gauges are working properly as is the Chevrolet radio.

This is a really fun classic that does well at shows and is very enjoyable to cruise around in. It also comes with a matching Orange convertible boot cover.

**Finally own that vintage Camaro you have always wanted
for the reduced price of only ~~\$39,900.00~~ \$35,900.00!**
